# L'orale

code couleur de lecture :

**Julien = vert**

**Thomas = rouge**

**Evan = orange**

## Partie 1 : L'organisation en anglais

**Hello, we are going to present our group project to you by explaining the idea we had and how we arrived at this result.**

**To begin, we gathered to share our ideas about the website we were going to create. What will be the theme of this site?**

**We opted for an online shopping site by creating a brand in the image of ADRAR. The name will be simple and communicative, the goal being to understand directly what it is for just by reading the name. It will be ADRAR SHOP!**

**We pooled our different skills and thought about how to put them into practice .**

**- So, hello, I am Julien, the group leader. I was the one with the most knowledge in HTML, so I took the responsibility of handling the code and creating the site.**

**- Hello, I am Thomas. I was the one who took care of creating the articles for the site and the design thanks to my knowledge in photo and video editing. I was the most comfortable with this kind of software.**

**- Hi, I am Evan and my role was to help with the coding and all other tasks related to creation and implementation.**

**Having completed our pooling of ideas to start the project, we can now move on to the development and implementation of the website. We will also continue in French for better collective understanding.**
